## Portfolio Overview (Mobile/Cellphone Apps development – Android only):

### **Golootlo – DECAGON PVT LTD (Pioneer creation of original Android/iOS apps & previous design-development by MENUSPRING INC, UK)**

Golootlo app is the simplest and fastest way to access the best discounts near you. Golootlo app gives you access to thousands of discounts at nearby cafes, restaurants, salons, retailers, grocery stores, doctor's clinics and so much more. Discover live offers right at your fingertips, access merchant info, directions, location, menu and pictures all in one place, and save everyday on thousands of things to do, eat, see and shop. Login and simply love every moment; whether you are a foodie, sports fan, a shopaholic or an entertainment junkie, we promise to to give you the power to make the right choice with rewards & savings on 1000s of brands.

### **EET – MENUSPRING INC, UK:**

Use eet to read menus, search dishes, share favourites and more for thousands of restaurants in and around London.

eet introduces a real time display of table availability at select London restaurants, bringing dining in to the age of on-demand service and connectivity. Browse restaurants nearby or across London based on their availability to seat you now. Just two taps and the restaurant immediately knows that you are on your way. No need to call ahead for reservations or trek across the city for shorter queues - eet connects you to culinary London in real time.

eet menu technology currently powers both *TimeOut* London & *Tastecard* providing their readers access to over 750,000 dishes from more than 9,000 restaurant menus. Our app is the easiest to use and most complete restaurant and foodie app allowing you to search, discover and share restaurants and dining experiences around London, and then to grab a seat at the one you most crave. Come explore, share and celebrate with us, while discovering new cuisines and restaurants, guaranteed to whet your appetite.

### **EET Restaurant Pager APP – MENUSPRING INC, UK:**

(Note : **MENUSPRING-EET ResPager**- for restaurants subscribed to eet's Real-time Tables availability platform ONLY. Available through paid subscription.)
